

# 2006, All Impaired Waters

## Impaired Waters for which a TMDL has been Completed

- Category 4A-M, Slight Impairment - Marginal Condition
- Category 4A-P, More Severe Impairment - Poor Condition

## Impaired Waters for which Other Pollution Control Requirements are Expected to Result in Attainment

- Category 4B-M, Slight Impairment - Marginal Condition
- Category 4B-P, More Severe Impairment - Poor Condition

## Waters Impaired by a Non-Pollutant (eg. Exotic Weeds)

- Category 4C-M, Slight Impairment - Marginal Condition
- Category 4C-P, More Severe Impairment - Poor Condition

## Impaired Waters that Require a TMDL

- Category 5-M, Slight Impairment - Marginal Condition
- Category 5-P, More Severe Impairment - Poor Condition

## Other Waters

- No Known Impairments

## Political Boundaries

- State boundary
- County boundary
- Town boundary

## NOTES:

1. See the 2006 Consolidated Assessment and Listing Methodology (CALM) for details regarding how assessments were made.
2. TMDL stands for Total Maximum Daily Load study.
3. In New Hampshire, fish/shellfish consumption advisories due to mercury are in effect for all surface waters. Waters impaired by mercury advisories were assessed as impaired and requiring a TMDL but were intentionally not shown on this map so that waters threatened or impaired by other causes and sources could be presented.
